# PlantUML Integration

What's this about?

PlantUML diagrams can be integrated directly within Markdown files. Pandoc will invoke a dedicated PlantUML filter to render the PlantUML code to an image which is finally included in the PDF.

More details can be found in the offical documentation of the filter (Link).

Example Diagram

How to run

```
docker run -it -v C:\your\path\here:/data pandoc4all plantuml-integration.md -o plantuml-int
```
